

SUPERPOWERS & SUCCESSES!

What are labeled "mental illnesses"
can be dangerous gifts.

"Depression" can be a source of deep empathy.

"Mania" can be a window into spiritual wisdom and creative genius.

"Schizophrenia" can be access to information unknowable by ordinary means.

- How did you shift from "symptom" to "superpower"?
- How do you use your superpowers?
- How do you keep yourself well while embracing your gifts?

WHAT'S YOUR SUPERPOWER?

Come and share your story and be inspired by others!
